Dear Ms. Andara Marta,

I am writing this letter to submit my resume through, the campus recruitment drive for the position of Django Developer in your organization. I will be completing my bachelor's degree in Computer Engineering in 2025 from M.H. Saboo Siddik College of Engineering Mumbai.

4 years of rigorous curriculum, group projects & presentations have helped me hone my technical and analytical skills with my communication skills in to a perfect blend. My enthusiasm towards learning new technologies, a desire for solving logical problems and multiple certifications in Web Development. Which give me confidence to assure you that I will be a valuable candidate in your organisation.

Microsoft tops the list of my dream company and I would be proud to be part of it. Please have a look at my resume, and if you think my skills find resonance with your organization's requirements, I will be happy to present myself for an interview. I look forward to hearing from you in the affirmative.

Thanking you

Sincerely,

Fahad Mahaldar
